PROFESSIONAL SUMMARY

Full Stack Web Developer with hands-on experience in building responsive and scalable web applications using the MERN Stack (MongoDB, Express.js, React.js, and Node.js). Skilled in REST API development, database management, authentication systems, and modern UI implementation. Experienced in integrating third-party APIs and developing real-world projects with a focus on performance, usability, and clean code practices. Passionate about learning new technologies and solving complex development challenges.

TECHNICAL SKILLS

Frontend:	JavaScript, React.js, Next.js, Tailwind CSS,
Backend:	Node.js, Express.js
Databases:	MongoDB, Supabase, MySQL
Tools & AI:	Git, GitHub, Postman, Vercel, Cloudinary, REST APIs, LLM Integration, Prompt Engineering

PROJECTS

1. AI PDF Intellect [ai-pdf-intellect.vercel.app]

Full Stack Developer

Technologies: [React.js](#), [Node.js](#), [Express.js](#), [Context Engineering](#), [AI API Integration](#), [Tailwind CSS](#), [Supabase](#)

- Developed an intelligent AI-powered PDF analysis application implementing advanced context engineering principles to dynamically inject relevant document text chunks into the LLM prompt window.
- Integrated language models via robust backend APIs, using optimized contextual conditioning to deliver precise, hallucination-free, and context-aware insights.
- Utilized Supabase for secure data layer architecture and Cloudinary for optimized cloud-based PDF storage and retrieval.

2. Tailor Shop SaaS [dipanshu-tailorshop.vercel.app]

Full Stack Developer

Technologies :- [Next.js](#), [Node.js](#), [Tailwind CSS](#), [MongoDB](#), [Vercel](#)

- Developed a scalable SaaS platform tailored for tailor shops, featuring streamlined client data management and order tracking.
- Designed a clean, modern, and highly responsive frontend layout maximizing user accessibility.
- Integrated robust MongoDB schemas for seamless handling of dynamic product listings and customer metrics.

EXPERIENCE

Axixa Technologies | Web Development

Present

- Actively building and optimizing full-stack web applications implementing clean software architecture and system design patterns.
- Collaborating closely with development teams to deliver modular, scalable solutions with a strong focus on optimized frontend performance and efficient backend APIs.

EDUCATION

- **Bachelor of Computer Applications (BCA) | Pursuing**
Maharaja Ganga Singh University (MGSU)
Current Score: CGPA 7.90
2023- current
- **Senior Secondary (12th) | Completed**
Score: 79.40%
- **Web Development**
Axixa Technologies
